

I tried to send comment on this issue befor but had trouble getting it through. I just wanted to say that I have really been grateful for the privacy act and do not feel that you should change or amend a thing. Frankly, I think it is too bad that ANY unauthorized calls get through to my line, but I realize there are only so many restrictions you can put on these things. I have personally enjoyed the quiet that not receiveing telemarketers has given me. I tend to be one of those people that do not respond "nicely" when called at 8:00 in the morning to buy subscriptions or whatever and would love it if the privacy act would continue to protect me from these obtrusive calls. If I want to be contacted by sales-persons in my home I could request it from the company. I do not feel as though I need to be selected at random. Thank you for your efforts in this matter.
